## Report of Superintendent

### To the School Board and Citizens of Bartlett:

The only change in our teaching staff this year was in the primary school in Bartlett village. Miss Grace Newton who had rendered excellent service for a number of years, resigned to accept another position, and Miss Barbara Purmort of Newport was chosen for the vacancy. Miss Purmort is a graduate of Keene Normal school and is well qualified for the position.

The high school this year has been filled to capacity and beyond with a registration of seventy-five pupils. The same situation will prevail next year. The curriculum has been enriched by a new course in Consumer Education which has proved valuable and popular. The high school staff is to be commended on keeping abreast with recent thought both as to objectives and content of instruction. The problem of unnecessary absence and tardiness has not, however, been solved although there is an improvement in the situation. There are still families in which unnecessary absence from school duties is not considered a serious matter. As long as this state of mind continues the high school is under a great handicap in meeting accepted standards of school work.

The new elementary school at Lower Bartlett is one of the most modern small schools in the state and is the pride of its teachers, pupils and their parents. It is not necessary to emphasize the advantages offered in this building compared with the old order. Every citizen and tax payer in Bartlett should visit the building and

if possible in school hours. The furnishings of the teachers' room and office are the gift of Mr. and Mrs. Scott Simpson.

Under the new arrangement there is an increase in the items of janitor service, fuel and transportation. This increase is certainly no more than would have been the cost of re-opening the Goodrich Falls school which was the alternative if new school facilities had not been provided. It should be noted further that under the new set-up the amount of state aid to be furnished the district for this year is nearly one thousand dollars greater than the amount granted last year.

The old school houses have not at this date (February 14) been sold. The school board was authorized by vote to sell them and to use the proceeds for the new school either in construction or on the grounds. It has seemed wise to wait for an advantageous price and it would be better to carry this property as an asset than to dispose of it at less than a fair price. Because of the fact that this expected revenue may not be available before June 30, 1939, when our fiscal year closes, and also because at this writing the final adjustment between the P.W.A. account and the school district has not been made, it has been thought best to include article seven in the warrant. More exact information should be available at the time of the district meeting on March 14 and it is possible that no action will need to be taken on this article.

The special appropriations for high school transportation and for insurance should be passed as recommended by the school board. Article 10 is inserted in order that the meeting may not be closed to consideration of any special repairs or equipment but so far as we know now, the article can be passed.

Respectfully submitted,

JOHN H. FULLER
